GARDEN FRESH VEGETABLES — HIGH IN VITAMINS

POLE BEANS

10c 2-oz. pkt. 30c for 7 oz.
45c for 14 oz. \$1.10 for 2½ lbs.

KENTUCKY WONDER WHITE SEADED: Similar to Kentucky Wonder, only earlier and white seeded.

KENTUCKY WONDER or *Old Homestead* (65 days) Early, climbs well, bears a heavy crop of large, green, curved pods, 7 to 9 in. long. Due to great length they appear slender though thick and meaty; tender, brittle, of good quality, show slight strings as the pods reach full size. Preferred to all other green-podded pole beans.

MISSOURI WONDER (65 days), extremely early; round, medium green pods, 6 in. long. Excellent dorn hill beans for snaps.

WHITE CREASEBACK (68 days), green pods are 6 in. long, round, deeply creased or saddle-backed, entirely stringless and brittle. White seeds are fine for baking.

Stringless Green Pod Beans

10c 2-oz. pkt. 30c for 7 oz.
45c for 14 oz. \$1.10 for 2½ lbs.

TENDERGREEN—STRINGLESS (53 days) Strong, vigorous plants are well branched and bear a great quantity of beautiful dark green, round, extremely meaty, tender pods, 6 to 7 in. long. Absolutely stringless and free from fiber at all stages of growth; most delicious flavor. Pods mature early and are borne profusely for a long time. Ideal for market or canning.

FULL MEASURE—STRINGLESS (54 days) Medium-early, well-branched round plants bear large crop of fleshy, deep green round pods 5 in. long. Of superb quality and rich flavor, popular for high yields and long picking season.

BOUNTIFUL STRINGLESS (48 days) Green pods of choicest quality, 6 in. long, flat, tender, rich flavor, matures early. Proven to be unexcelled on heavy as well as light soils. Vigorous, hardy prolific plants bear over a long season. The best flat green-pod Bush Beans.

IMPROVED GOLDEN WAX BEANS undoubtedly best for home garden; are rust-proof, semi-round, yellow, of good quality, and it has no strings. Ready for picking 47 days from planting.

1,200 TO ONE BEANS, a gigantic wonder—over 200 pods have been grown on a single plant—all well filled, producing over 1,200 beans from one bean. Strong, erect plants, bear pods well up from the ground. Order now, limited supply.

15c 2-oz. pkt. 35c for 7 oz. 60c for 14 oz.
\$1.10 for 2½ lbs.

LIMA BEANS, Pole and Bush

10c 2-oz. pkt. 30c for 7 oz.
45c for 14 oz. \$1.10 for 2½ lbs.

HENDERSON'S BUSH LIMA (67 days) is most dependable and best yielder of the limas. Great for shell beans and canning. Stands dry weather.

BURPEE'S IMPROVED BUSH—the largest of all Bush Limas, 5 to 6 in. long by 1¼ in. wide.

LARGE WHITE POLE LIMA (88 days) also known as "King of the Garden." Pods are 6 in. long, broad, flat, and contain 4 or 5 large greenish white Beans of superior quality. Productive over a long season.

HOPÍ INDIAN BEAN (lima type) grown by the Hopí Indians of Northern Arizona from prehistoric times under strictly dry farm conditions and crude farm practices. Fine for eating (strongly anti-acid) and a heavy producer they are semi-vining, long rooted, drought-resistant and should be placed in rows 30 to 40 in. apart. Require the full summer season and should be harvested before frost.

15c 2-oz. pkt. 35c for 7 oz. 55c for 14 oz.
\$1.25 for 2½ lbs.

FROSTPROOF BEAN or *English Broad Bean* (75 days) Should be planted with your early garden at the same time you plant radishes and onions. Grows very hardy, between a bush and a vine. Shell beans are large and have a distinctive flavor.

15c pkt. 30c for 7 oz. 50c for 14 oz.

DRY BEANS or SOUP BEANS

10c 2-oz. pkt. 30c for 7 oz.
45c for 14 oz. \$1.10 for 2½ lbs.

GREAT NORTHERN the Old Standby for Winter Use—(90 days) *Montana White*. The large flat soup bean a little larger than the Navy Bean but eats every bit as well and is lots easier to pick over. A good yielder and early.

RED KIDNEY (70 days) As easy to grow as the others; good yielder of large, dark red, dry beans. Just the thing for baking or for soup.

YARD LONG POLE BEAN An excellent variety—vines are rampant growers and produce an enormous crop of long slender round pods, a quality snap bean. Pods grow 3 ft. long and are very tender and a fine flavor.

15c 2-oz. pkt. 30c for 7 oz. 50c for 14 oz.
\$1.10 for 2½ lbs.

SOYBEANS Bansei (90 days) Early edible type adapted for production of ripe beans in regions of short seasons but suitable for green shelling. Very productive, not susceptible to shattering. Pods yellow with black tinge. Plant erect and medium height. Seed medium sized and yellow.

10c pkt. 25c for 7 oz. 45c for 14 oz.

PEPPERS . . . Vitamins A-C

15c Pkt. 75c ½ oz. \$1.35 for 1 oz.

CALIFORNIA WONDER (125 days) The best of the medium sized and excellent for stuffing, smooth, sweet heart shaped peppers, largely used by canners (about 3 in. long). Pepper, very smooth, color deep. Meat thick, tender, and of finest flavor. About 5 in. long and 4 in. wide; blocky in shape. Rich and glossy green. It is fast replacing other varieties.

PERFECTION PIMENTO (125 days) The best of the medium sized and excellent for stuffing, smooth, sweet heart shaped peppers, largely used by canners (about 3 in. long).

LONG RED CAYENNE (120 days) A very strong variety; fruit is about 5 in. long and slender; bright red when ripe.

10c Pkt. 50c for ½ oz. 90c for 1 oz.

NOVELTY SEEDS WORTH TRYING

NEW GUINEA BUTTER VINE, one of the most delicious of all vegetables grows to enormous size, one fruit often weighs 15 lbs. (3 to 5 ft. long). More productive and easier to grow than squash but can either be grown similarly or trellised up. Vines are always free from disease and insect pests, standing more neglect and abuse than other vegetable vines. Fruits best small (during fuzzy growth) most delicious cooked like Squash or fried like Egg Plant. Pkt. 15c

CHINESE SALAD BEAN, use for bean-sprouts, serve in chop suey. An all-the-year-around salad, enough for good sized family can be grown in small dish or pan in kitchen in 3 to 5 days, in water only, without soil, sunshine or chemicals. Unexcelled for soups.

15c Pkt. 30c for 7 oz. 50c for 14 oz.

STRAWBERRY GUAVA Luscious tropical fruit is about size of a walnut, delicious, sweet spicy flavor. Fine for eating out of hand, unsurpassed for making jelly. Bears delightfully fragrant white flowers and reddish colored fruit at same time. Grow plants from seed, they begin to bloom and bear fruit while quite small. Pkt. 20c

CHESTNUT BEAN grows in form of a tall bush completely covered with pods. Chestnut-flavored bean cannot be surpassed for soup and turkey stuffing. Popular and known in Spain as the "Garbanzo."

15c Pkt. 30c for 7 oz. 50c for 14 oz.

WONDER BUSH CHERRY grows about 18 in. high, bears crops of best flavored fruit you ever tasted. Use raw, also makes better pie than tree cherries. Sometimes call *Ground Cherry*, bears 8 weeks after planting. Pkt. 10c ½ oz. 50c

GARDEN HUCKLEBERRY grows about 4 ft. tall, producing literally ropes of jet black fruit from ground to tips of branches. Fruit matures about with ordinary tomatoes size about that of cranberry; and is delicious for preserves or pies. Pkt. 10c

DOMESTIC COFFEE BERRY makes a delicious, nourishing drink, costing less than 1c per lb. Best coffee substitute yet discovered is pronounced by thousands to be as good or better than the best coffee; the rich, deep brown color of old Java is a pure food drink giving health and strength to young and old. An early variety of soy beans it is successfully grown in any climate and is sure to ripen even in the extreme North, very productive and as easily grown as corn or beans on all soils. Save your health and money. Prepared like any other coffee. Full directions incl. Pkt. 15c 7 oz. 30c

CABBAGE . . . Vitamin C

10c Pkt. 35c ½ oz. 65c 1 oz.

COPENHAGEN MARKET, one of the finest early round-headed cabbages in cultivation. Heads all mature at the same time enabling grower to gather crop at less expense and permits cleaning the land at the first cutting. Heads average about 10 lbs. each, are hard and solid with small core. Extra fine sweet quality, is short stemmed variety, heads nearly resting on the ground.

EARLY JERSEY WAKEFIELD (62 days) Our stock is characterized by its distinctive, smooth, blue-green leaves. Valuable for home and market garden, plants small, with short stems, permit close setting in the row. Small compact, weigh 2 lbs. Unusually early maturity, also cold-resistant.

CHARLESTON WAKEFIELD (71 days) About a week later than Early Jersey Wakefield, but the conical heads are fully ½ larger, less pointed, and usually weigh 4 to 5 lbs. Heads are broad heart-shaped, 8 in. long, 7 in. broad at base, firm, very solid, and a heavy yielder. Largely used in the South for spring shipping to northern markets and also excellent for the home garden and truckers.

CHINESE CELERY CABBAGE, most delicious, combining rich celery flavor with cabbage. Serve cooked or eat like celery; replaces lettuce in salads, use for cold law.

LIGHTNING EXPRESS is ready for use in 65 to 70 days from sowing, 10 days earlier than the Jersey Wakefield. Tried and proven to be 4 to 10 days earlier than "the earliest grown" varieties offered by other houses. Always firm. Plant early, they're very hardy, of good size, solid and set plants close together. As many as 14,000 heads can be grown on one acre of ground, and will bring a larger profit per acre than later and heavier varieties.

15c Pkt. 40c ½ oz. 75c 1 oz.
\$2.00 for ¼ lb.

Our Seeds Are Germination Tested—Order Now!

RADISHES

10c Pkt. 25c 1 oz. 75c for ¼ lb.

CRIMSON GIANT grows almost twice the size of an ordinary radish, and yet does not become hollow. Very mild and sweet. This brilliant, crimson radish is one of the best for the home garden.

SCARLET TURNIP—WHITE TIPPED is our favorite, it'll be your favorite too! Almost completely round it matures in about 20 days; deep scarlet color with a distinct white tip.

WHITE ICICLE will make a good cash crop for you. Even in size, good shape, perfectly white clear to the top it is sweet, tender and mild.

BEETS

10c Pkt. 35c 1 oz. \$1.00 for ¼ lb.
\$3.00 for 1 lb.

DETROIT DARK RED (59 days) Splendid for the home garden, market shipping and canning. An early maturing beet of remarkable uniformity is perfectly round and of a deep red color. They reach 2½ to 3 in. in size and have a small collar and a thin tap-root. The flesh is very blood-red, showing hardly any zones. It is tender, fine-grained, exceptionally sweet. Medium size foliage.

CROSBY'S EGYPTIAN (48 days) an extra-early variety for home and market garden use. Unexcelled for bunching. Roots are smooth, round, with slightly flattening tops; small tap-root. The flesh is very dark blood-red. Tops are medium and the roots deep purplish red. Crisp and tender.

RUTABAGAS Our Improved American Purple Top matures in 90 days. A fine strain of largest size, best shaped variety, small neck, smooth skin; good cropper and keeper. A heavy yielder. Excellent table quality.

10c pkt. 20c 1-oz. 50c for ¼ lb.

VICTORIA RHUBARB is an excellent and hardy sort for home garden.

15c Pkt. 40c for 1 oz.

SALSIFY is rapidly gaining popularity because of its delicious oyster-like flavor. A real delicacy fried, stewed, or used in soups. Come along in late summer and fall. Culture same as parsnips. Some should be dug and stored for winter use, some left for early spring.

MAMMOTH SANDWICH ISLAND SALSIFY is tender, delicious, smooth, has beautiful white roots of excellent quality.

10c Pkt. 60c 1 oz.

BRUSSELS SPROUTS A variety of cabbage bearing on its stem or stalk 50 to 100 small compact round heads. Plants (20 in. tall) are hardy. Frost improves them. Cook and serve like cabbage or Cauliflower.

15c Pkt. 50c ½ oz. 90c for 1 oz.

CUCUMBERS

10c Pkt. 35c 1 oz. \$1.00 ¼ lb.

BOSTON PICKLING (60 days) an early pickling or slicing variety. Fruits weigh about 1½ lb. 6 in long and 2½ in. in diam.

IMPROVED LONG GREEN (70 days) One of the best for all purposes—fruits long and slender, seed cavity small. Fruits weigh 2½ lbs. are 12 to 15 in. long and 2½ in. in diam.

STRAIGHT EIGHT—Fine Slicer (66 days) A big vigorous grower, cylindrical in shape, uniform round, dark green over the entire surface, small seed cavity, thick flesh of fine quality and very attractive. One of the best.

COLORADO (60 days) finest slicing cucumber in existence, fruit 9 in. or more in length, slim, only 2½ in. in diam., very straight, very dark green, full at the ends and stays green longer than most sorts. Heavily productive and extra early. Not adapted for pickling as the fruit is too slender when young.

STAYGREEN (60 days) Our strain is the improved long type and is one of the most productive and popular cucumbers in use today. For years it has been a leading shipper and is commonly used in the home and market gardens.

WEST INDIA GHERKINS (60 days) a little oval shaped prickly pickle which is said to have come from the West Indies. Very prolific bearer, a stronger grower than most cucumbers, grows anywhere and is practically bug and disease proof.

SNAKE CUCUMBER can be sliced. Grows crooked and resembles a serpent. Try a few.

15c Pkt. 45c 1 oz.

SPINACH Bloomsdale Long Standing (45 days) latest of the Long Standing Spinach introductions. Improvement was accomplished through the selection of hermaphrodite plants (bisexual), which run to seed much more slowly than the unisexual. This variety is of better quality than the Antvorskov (King of Denmark), having larger, Savoy type leaves.

10c Pkt. 25c for 1 oz. 65c for ¼ lb.

TURNIPS Purple Top Globe—Our selected strain is superb in its uniformity of size, shape and maturity. Most popular turnip in existence.

10c Pkt. 20c 1 oz. 50c ¼ lb.

BROCCOLI Italian Green Sprouting is as easy to raise as cabbage and is as good as Cauliflower. The plants do not make solid heads but produce an abundance of light green tender sprouts which are delicious creamed or used for greens.

15c Pkt. 80c ½ oz. \$1.40 for 1 oz.

BORECOLE OR KALE is the best of all and should be in every garden. Easy to raise it yields immense crops. The tender delicious leaves may be served creamed or as green.

10c Pkt. 25c 1 oz. 75c for ¼ lb.

The Moon Sign Book by Llewellyn George gives complete instructions in the use of planetary influence on planting and harvesting, also business and personal affairs, etc., the result of more than 35 years of research. Why do farmers plant potatoes in the dark of the moon? When should corn, beans, etc., be planted? These and many other questions are answered and explained in a simplified yet scientific and practical manner. The Moon Sign Book has been published annually for over 37 years with sales increasing each year. Price, \$1.00 in the U. S.

It's EASY, It's FUN

OUR SEEDS ARE GERMINATION TESTED

PUMPKIN SEEDS

JUMBO OR MAMMOTH KING often weighs 100 to 300 lbs. Always a prize winner at exhibitions. A good pie pumpkin, is splendid keeper and valuable for feeding purposes. **10c Pkt. 30c for 1 oz. 75c for 1/4 lb.**

TENNESSEE SWEET POTATO PUMPKIN is an excellent sort, which, when cooked, resembles a sweet potato in flavor, but is of more delicious taste. Pear-shaped and slightly ribbed, the color is creamy white, sometimes striped with green. **10c Pkt. 25c for 1 oz. 70c for 1/4 lb.**

SMALL SUGAR OR NEW ENGLAND PIE PUMPKIN is earliest and best for pies. Fruit commonly 6 in. long and 8-9 in. in diam. Flesh thick, orange yellow, of unexcelled quality.

CHEYENNE BUSH PUMPKIN can be grown in small gardens. Early variety forms a bush 22 in. high and 2 ft. across, having 2 or 3 pumpkins, each one just right for a pie. Try some.

CUSHAW CROOKNECK Green striped, a good keeper, fine flavor and very prolific. **10c Pkt. 20c for 1 oz. 50c for 1/4 lb.**

WATERMELONS

10c Pkt. 25c for 1 oz. 75c for 1/4 lb.

STONE MOUNTAIN (88 days) Also known as *Dixie Belle*, a popular round watermelon with grayish green smooth skin and beautiful deep crimson flesh without any white in the heart or stringiness. The average melon weighs about 45 lbs. each, has a thin rind and is fine for home use and local markets where a nearly round melon is desired.

WINTER WATERMELON, a home-grown melon for your Thanksgiving dinner. It is not a citron or a freak, but a very prolific, long-keeping true watermelon. Flesh red, extremely firm, very brittle and deliciously sweet. Fruits taken from the field before killing frosts and stored in a cool place will keep long into late fall and early winter and retain their delicious sweetness and flavor.

TOM WATSON (95 days), a very large melon weighing 35 to 40 lbs. An excellent shipper. Skin is light green with darker green veins; flesh is deliciously sweet and juicy.

KLECKLEY'S SWEET OR MONTE CRISTO, one of the earliest, best and sweetest-flavored melons in cultivation. On account of its thin rind, it will not stand shipment to distant markets, but it is the best that can be grown for the home and nearby markets. The skin is dark green; it is of symmetrical oblong shape, well rounded on both ends. The flesh is scarlet, firm, solid and of delightful flavor.

PEERLESS (85 days), highest quality melon for home and market. Flesh bright scarlet. Sweet meat. Sometimes called Ice Cream.

DIXIE QUEEN (85 days), an excellent shipper. Ideal size—30-lb. average. Round thin rind, delicious flavor. Seeds small and white color.

CALIFORNIA HONEY (77 days), *New ice box size*, fruit 8x10 in.—deep green. Delicious sweet flavor.

New Climbing Watermelon
A superb variety that may be trained and tied to trellis, etc. Ideal for small garden. Melons about the size of large cocoanuts; crimson flesh of the highest quality; rich and sweet. Fruit ripens for a long period, unlike other sorts which ripen their fruit mostly at one time.
15c Pkt. \$1.25 for 1/4 lb.

Mammoth Prize Watermelon
Largest grown, many grow to from 100 to 150 lbs. On one vine, 5 melons were grown that weighed 152, 151, 149 1/2, 148 3/4 and 147 lbs., the five weighing a total of 748 lbs. The seed we offer is extra select, and should produce fine, sweet, juicy melons of excellent quality and enormous size.
15c Pkt. \$1.25 for 1/4 lb. \$4.50 for 1 lb.

SQUASH

10c Pkt. 30c for 1 oz. 85c for 1/4 lb.

NEW ITALIAN MARROW (60 days) *Zucchini* is 18 in. long, 5 to 7 in. in diam. when matured; an excellent keeper, very dark green. Bush type is very productive. Nothing better for slicing and frying when small, if kept picked, will continue to bear until frost. Delicious in the "baby" state, 3 to 6 in. long.

EARLY PROLIFIC STRAIGHTNECK, new high yielding summer squash. Plants strictly bush and compact. Quality unsurpassed.

TABLE QUEEN (80 days) sometimes called *Acorn* because of its shape. Most deliciously flavored, excellent for squash pie. Just the right size to cut in half to serve two. About 6 in. long, shell is thin, hard, dark green. Flesh yellow and very tender.

GIANT SUMMER CROOKNECK (58 days) larger than the above, the golden yellow fruits growing 12 to 14 in. long and 3 1/2 to 4 in. across. Valuable for home or market.

DELICIOUS (110 days) has become known for its supreme quality, produces medium sized, top-shaped, dark green fruits with light green markings. Each fruit weighs from 5 to 10 lbs. The dry flesh is bright orange, thick, fine grained, and of outstanding flavor. A splendid winter keeper.

WHITE SCALLOP (50 days), for home and market. Round with scallop margins. White when mature.

BANANA SQUASH (105 days) for home and market. 20 to 24 in. long and 6 in. thru. Flesh is light orange, fine grained and rich in flavor.

HUBBARD Winter keeper, large fruit, golden strain.

to Grow fresh VEGETABLES

SWEET CORN

10c Pkt. 25c 7oz. 45c 14 oz. \$1.10 2 1/2 lbs.

GOLDEN BANTAM (83 days) This golden colored corn is the leading variety for early home garden planting; ears, though small, are numerous and of finest quality, very sweet and tender. Plant 4 1/2 to 5 ft. tall, ears 6 to 7 in. long 8 rowed.

STOWELL'S EVERGREEN (105 days) Best for late corn. Kernels white, plants 7 to 7 1/2 ft. tall, ears 8 in. long, 14 to 20 rowed.

COUNTRY GENTLEMAN (95 days) A good home garden variety. cob small, grains white, very deep, small and irregular, very sweet and tender. Plant 6 1/2 to 7 ft. tall, ears 7 1/2 to 9 in. long.

BLACK MEXICAN (88 days) Very sweet and tender. Ears are white when in eating condition, turning black as it matures. Plants 6 1/2 ft. tall, ears 8 to 9 in. long and 8 rowed.

HYBRED—Superb for home gardens

GOLDEN CROSS BANTAM (85 days to table), chief reliance of canners, quick-freezers and market growers of quality sweet corn. Plants large and thrifty, often produce 2 to 3 ears. Ears very uniform and attractive, about 8 in. long and filled compactly with 12 to 16 straight rows of kernels that are unexcelled for any purpose for which sweet corn is grown.
15c Pkt. 40c 7 oz. 70c 14 oz. \$1.50 2 1/2 lbs.

POPCORN

10c 2oz. 35c 7 oz. 60c 1 lb.

AFRICAN GIANT POPCORN, special bred disease-free seed popcorn. Extra large, smooth grains. Some of them as large as 1 in. in diam. after popping. Pops with a loud bang. The minute it starts to pop, it sounds like a battle. Rich, cream-colored grains. Tender and delicious.

AUSTRALIA WHITE HULLESS or *Tom Thumb*, kernels translucent waxy white; large and snow white when popped.
10c Pkt. 30c 7 oz. 50c 1 lb.

Peanuts 15c Pkt.; 30c 7 oz.; 50c 14 oz.
They're easy to grow, roast and eat. If you don't think so, take a pan of your home grown peanuts, put them in the oven for about 30 min. and eat them while they are still hot. Good! of course; and—it's fun to plan to do this on long winter evenings, the children like them too! Peanuts will stand lots of dry weather and still yield an immense crop of delicious nuts. Plan on planting some peanuts this season.

IMPROVED SPANISH. Small nut can be grown in north.
TENN. RED. Large nut, not suitable for north.
Full directions with each pkt.

Parsnip 10c Pkt.; 25c 1 oz.; 75c 1/4 lb.

HOLLOW CROWN—the roots reach a length of 8 to 10 inches. Flesh white, tender and sweet.

MUSKMELONS

HEARTS OF GOLD (95 days), is mighty, mighty tasty clear to the rind. Gets its name from the golden yellow flesh. The melons are almost round, heavily netted. It is medium early, very productive, and one of the best shipping melons on the market. The flesh is thick, firm and solid—the kind you like.

TIP TOP or *Salmon Flesh* (96 days) a large size, main-crop melon, varying in shape from round to slightly oblong. The pale green skin is distinctly ribbed and lightly netted. Flesh is a beautiful deep salmon, sweet, spicy, and full of rich aroma. Popular with home gardeners and, in some sections, a leader with market growers.

HONEY DEW or *Green Flesh* (110 days). The well-known green-fleshed melon for warm climates; will not do well in the north and east. Smooth, ivory colored skin; rich, emerald-green very sweet flesh.

HONEY OR SUGAR ROCK (85 days) An early variety increasing in popularity among market gardeners and shippers. Fruits—5-6 in. in diam., round to slightly flattened, coarsely netted, rind strong, deep salmon color.

HALE'S BEST (80 days) Most popular market sort, medium size, very early sort, slightly oblong, but well netted and very attractive. Thick flesh, deep orange color extensively planted in the commercial muskmelon growing districts.
10c Pkt. 35c 1 oz. \$1.00 1/4 lb.

BANANA Muskmelon surpasses all others in its delicious flavor. The flesh (the melon being nearly solid) is of a rich salmon. The quality is excellent when the melon is thoroughly ripe. 18 to 36 in. in length; very prolific. Exceptionally sweet, spicy and delicious. Don't fail to try it.

VINE PEACH ripe fruit in 80 days after seed is planted. This wonderful Vegetable Peach is the most beautiful of all vegetables. They resemble oranges in color, shape and size, and grow on vines like melons. Extremely early; of the easiest culture, and very prolific.
15c Pkt. 40c 1 oz. \$1.25 1/4 lb.

OKRA—10c Pkt.; 20c 1 oz.; 65c 1/4 lb.

WHITE VELVET grows strong, tall, 3 1/2 to 4 ft. high. The pods are about 6 to 7 in. long, white, slender, fleshy and very tender. Early maturing and extensively grown for home use and local markets.

DWARF LONG GREEN POD, early and very prolific, grows 2 1/2 to 3 ft. tall; pods dark green, fleshy and tender; become 7 to 8 in. long and 1 1/2 in. in diam.; tapered near tip.

DILL (70 days) Annual. The young stems are nice for flavoring soups and sauces and are used extensively in a minced state with lettuce. The dry or green branches and seeds are much prized for flavoring dill pickles. **Pkt. 10c**

PLANT TREES

For Beauty and Enhanced Property Values!

Ailanthus (or Tree of Heaven) Tropical appearance, 4 to 6 ft., \$1.00 ea.; 6 to 8 ft., \$1.50 ea.

Ash, White (Fraxinus Americana)—Native throughout America, 5 to 6 ft., 75c ea.; 6 to 8 ft., \$1.25 ea.

Birch, Red (Betula Rubra)—4 to 6 ft., \$1.00 ea.; 6 to 8 ft., \$1.25 ea.

Dogwood, Red Flowering (Cornus Florida Rubra)—Similar to White Flowering Dogwood except that the flowers vary from pink to light red. Grows 10 to 20 ft. high. 2 to 3 ft., \$2.50.

Box Elder (Acer Negunda)—Native tree of spreading habit, 4 to 6 ft., \$1.00 ea.; 6 to 8 ft., \$1.50 ea.

Cottonwood (Populus deltoides canadensis)—Spreading habit, 4 to 6 ft., 50c ea.; 6 to 8 ft., 75c ea.

Chestnut, Horse—Dense shade, white flowers in May, 3 to 4 ft., \$1.00 ea.; 4 to 5 ft., \$1.50 ea.

Crab Apple, Bechtel Double Flowers—Small tree, profusion of delicate pink flowers, 2 to 3 ft., \$1.50 ea.; 3 to 4 ft., \$2.00 ea.

Dogwood, White Flowering—3 to 4 ft., 75c ea.; 4 to 6 ft., \$1.50 ea.

Elm, American—5 to 6 ft., 75c ea.; 6 to 8 ft., \$1.50 ea.

Elm, Chinese—Native of China, 4 to 6 ft., 75c ea.

Judas Tree (Red Bud)—Pink blossoms, 3 to 4 ft., 85c ea.

Linden, American (Basswood)—5 to 6 ft., \$1.75 ea.; 6 to 8 ft., \$2.00 ea.

PEAS

10c Pkt. 25c 7 oz. 45c 14 oz.
\$1.05 2 1/2 lbs.

AMERICAN WONDER (60 days) Always comes into bearing ahead of the other wrinkled ones. Very dwarf, medium size pods of good quality, unusually productive.

THOMAS LAXTON (57 days) This has no superior as an early Pea of the medium height. The veins are strong with large dark green foliage, and grows 2 1/2 to 3 in. tall. They bear a surprising number of dark green pods, blunt-ended, and 4 to 4 1/2 in. long, well filled with large, tender Peas which retain their pleasing flavor and sweetness until they begin to harden. Unsurpassed for the home-garden and shipping.

LITTLE MARVEL (62 days) Tender, heavy yielding; it will be a long time, 'til we find a better one than this. For quality, yield, earliness, or any other point, it's hard to beat. A vigorous grower and a heavy yielder. Three quarts of pods will often shell out a quart of peas. Tender and sweet, and of finest quality.

ALASKA or *Earliest of All* (60 days) standard, popular. Extra-early, smooth-seeded pea for market and canning. Vines 2 1/2 ft. tall; light green. Well-filled, medium-sized pods completely packed with small round green peas, which mature practically all at one time. The pods are plump and round, light green, blunt. The mainstay of the grower who wants a variety that can be cropped in one picking.

DROUGHT-PROOF PEA

For midsummer planting this is the variety to plant. The handsome round pods are well filled with from 7 to 10 peas in a pod; quality excellent, sweet and tender, even when the peas are large. Vines grow 2 feet high, and require no support. This is the pea that will do its best in the North, South, East or West.

Pkt.	15c	14 oz.	50c
7 oz.	35c	2 1/2 lbs.	\$1.25

Egg Plant, 15c Pkt. 50c 1/2 oz. 90c 1 oz.

Egg plant like a rich, loamy soil. Plants should be set in the garden as soon as danger of frost has passed, in rows 3 ft. apart.

BLACK BEAUTY (80 days) Is oval in shape, uniformly the darkest in color. Perfectly spineless and smooth; has beautiful, rich purple color and handsome lustre.

Mustard, 10c Pkt. 25c 1 oz. 75c 1/4 lb.

GIANT SOUTHERN CURLED, leaves large light green, finely curled, and have a mild agreeable flavor. It also makes a fine greens for poultry.

MUSTARD SPINACH smooth leaf, fine flavor. Mustard that produces heavy and tops the list for "greens."

Flower Seeds for More Attractive Gardens and Homes

PENGUIN GOURDS are easily grown and no particular skill is required to make delightful gifts—simply harvest when ripe, painted, mounted on wooden or plaster base, and absorbent cotton is placed around to represent snow. Pkt. 20c

MEXICAN FIRE PLANT (Annual Poinsettia) grows quickly to a height of 2 1/2 to 3 ft. from seed sown in the open during May. About the middle of summer, the top central leaves turn to rick orange-scarlet, similar to the famous green-house variety of Poinsettia which is so popular about Christmas time. Can also be grown as a house plant. Pkt. 15c

MIXED PETUNIAS, a good range of brilliant and impressive colors; these hardy plants retain a continuance of blooms until frost. Their blazing array of color makes any display an object of admiration and beauty when stocked with these vigorous and profuse growers. Pkt. 15c 1/16 oz. 75c

SWEET PEAS, early flowering. Spencer mixed. Beautiful colors. Pkt. 15c 2 Pkts. 25c Oz. 40c

DWARF NASTURTIUMS Pkt. 10c Oz. 50c

GOLDEN GLEAM Pkt. 15c Oz. 65c

MIXED MORNING GLORIES, Pkt. 10c

OSTRICH FEATHER ASTERS, an improved strain of Giant Ostrich Feather, and considered the finest of all Asters. The plants are about 2 1/2 ft. high, robust in growth, and branch freely, and are loaded with magnificent, feathery, full, fluffy flowers par excellence. Beautiful mixed colors. Pkt. 15c

Specified colors. Pkt. 15c; 1/2 oz. 50c; 1/4 oz. 75c

GIANT ZINNIAS Mixed Dahlia flowered. Pkt. 15c 2 Pkts. 25c

Giant PANSY DELPHINIUM Mixed HOLLYHOCK Double Mixed Pkt. 15c

Miscellaneous Needs For Gardeners . . .

TRANSPLANTONE The Vitamin-Hormone stimulant. One ounce makes 1,000 gallons solution. Most effective form for Vitamin B-1. Use on all kinds of flowering plant, shrubs, seedlings, trees and vegetable plants when planting. Trial Pkg. 25c 3 oz. \$1.00; 1 lb. \$4.15; Postpaid.

SOIL-TESTER *Alkemi*. Revolving chart tells which flowers or vegetable will thrive in your degree of acid soil. Sufficient supply of *Alkemi* soil Testers to make at least 50 tests. Postpaid \$1.00

EASY WEAR HOME UTILITY GLOVES made soft and pliant. Washable in lukewarm water and mild soap. Ideal for garden, housework, painting, etc. Ladies' sizes: 7-8; Men's sizes: 8-9. Pair (postpaid) \$1.25

TRI-GEN *Rose Garden Spray Treatment*—it protects roses against many insects and diseases—it tends to promote healthy plant growth. Postpaid \$1.60

ONIONS, 15c Pkt. \$1.00 oz.

SILVER SKIN LARGE WHITE GLOBE (110 days to maturity), best white onion that you can cultivate, large perfect globe, excellent quality, a good keeper and silvery white in color. You can always get a little better price for these onions.

GIANT YELLOW SWEET SPANISH *Riverside Strain* (110 days to maturity), absolutely the largest, sweetest and mildest onion that can be grown from seed in the north, a beautiful golden yellow, perfect globe shape. Single onions have been grown that weighed over 4 lbs. Yields from 500 to 1000 bushels per acre are not uncommon. The mild flavor and fine appearance make them salable at the highest market price.

EBENEZER, the Extra Early, Long Keeping, Mild Onion, flesh is white, firm and of a very delicate flavor. Quite similar to Yellow Globe Danvers in shape but much larger in size, yellow skinned and has very small tops and matures early. Many people who know this onion will have no other kind for their own table.

SWISS CHARD *Giant Lucullus*, large tender leaves, stalks as thick as Rhubarb but never tough, and leaves can be picked as needed. Can be cooked like Asparagus or greens and is also used for chicken feed.

10c Pkt. 25c 1 oz. 80c 1/4 lb. \$2.40 1 lb.

CELERIAC or *Turnip Rooted Celery* (120 days) grown exclusively for its root, which are fine for soups and stews or cooked and sliced as a salad. The roots keep all winter if packed in damp sand or put into kilns like beet, carrots, etc. Plant and cultivate like celery except it does not require earthing up.

10c Pkt. 40c 1/2 oz. 65c 1 oz.

CELERY *Giant Pascal*, is best of all for fall and winter use. It is tall, has large thick and solid green stalks, which blanch to golden yellow. Crisp and is good keeper.

15c Pkt. 45c 1/2 oz. 80c 1 oz. \$2.50 1/4 lb.

VEGETABLE SPAGHETTI

15c Pkt. 40c 1 oz. \$1.00 1/4 oz.

This delicious new vegetable from Persia thrives in all climates and in any ordinary garden soil. Each plant produces from 6 to 10 beautiful bright yellow, oblong fruits about 8 to 10 in. long. Each fruit is filled with a delicious spaghetti-like pulp. When fully ripe, the whole fruit (without cutting or peeling) should be cooked 20 min. in boiling water; then cut in half. A dishful of this delicious vegetable spaghetti come out of each fruit. Season with salt, pepper and butter and serve hot.

PARSLEY, 15c Pkt. 30c 1 oz. 75c 1/4 lb.

MOSS-CURLY Vigorous, compact-growing variety; excellent for garnishing and flavoring; also a handsome decorative plant. Leaves fine and crisp, resembling moss. A most popular sort for the market and home garden.

TEXAS BLUE BONNET 2 Pkts. 25c

GIANT ZANZIBAR PALM *Zanzibaransis*—Ornamental Foliage Plant from seed of this variety, sown in the open ground in May, the plants are in full foliage early in July. They attain a height of 12 to 14 feet and form a perfect pyramid of foliage and brilliantly colored fruit, presenting a beautiful tropical appearance. Enormous leaves, 2 to 4 feet across, and highly colored light and dark green, coppery-bronze and dark green with reddish ribs. The plants are a repellent to Moles and the foliage is death to Japanese Beetles and Grasshoppers. Pkt. 15c 2 Pkts. 25c

SHOO-FLY-PLANT—it is said that flies will not stay in a room where it is grown if they can conveniently escape. What it is about it that repulses them is not clear, as the plant and flowers have no odor. It is a beautiful flowering plant, and blooms in a short time (60 days) from seed. It is a profuse bloomer in pots both summer and winter, the blooms being large, cup-shaped and of a lovely light blue color with white center. Pkt. 15c

CACTUS SEEDS—Cactus make most interesting house plants, extremely odd and curious, and many have generous and beautiful blossoms, sweet scented, and blooming profusely. Easily grown, thrive and bloom with very little care, and endure the heat and dryness of the ordinary living room. Fresh seed of a mixture of choice varieties—sow seed in pots or boxes in a warm room in moist sand, and the seed will grow quickly. Pkt. 15c

ORNAMENTAL GOURDS—Calabash Pipe—Dichcloth—Nest Egg—Pear-Shaped—Powderhorn—Sugar Trough. A fine mixture of rare, useful ornamental varieties. Pkt. 15c 2 Pkts. 25c

SURPRISE GARDEN MIXTURE, hundreds of varieties of pretty flowers at practically no cost. This flower seed mixture is especially prepared from a select list of hundreds of sorts—the colors are varieties being carefully proportioned to produce a constant and varied bloom the whole season. Pkt. 15c

INOCULATE Sweet Pea Seed for the best results. Enough Inoculation for 6 lbs. of seed for only. 10c

PLANTABBS for Potted Plants—Plus Vitamin B1

DOGZOFF is guaranteed to keep dogs and other animals away from places they are not wanted. Harmless to humans, non-poisonous, non-inflammable. Easy to use, simple instructions on every bottle. One bottle usually lasts a season. Postpaid 70c

FLORALIFE Cut Flowers Last Days L-O-N-G-E-R when bacteria-killing FLORALIFE is used—5 to 10 days longer. And no need to change water or to recut stems. Less work. FLORALIFE, patented, original, used and recommended by florists, Home \$1.10 Post-garden clubs, exhibitors. Pkt. 10c Size \$1.10 paid

LEAF LETTUCE

10c Pkt. 30c 1 oz. 85c 1/4 lb.

BLACK SEEDED SIMPSON, a favorite among the loose leaved kinds, very crisp and tender.
EARLY CURLED SIMPSON, the best of early varieties of the loose leaved kinds; leaves light green, crisp, and fine flavor.

HEAD LETTUCE

10c Pkt. 35c 1 oz. \$1.10 1/4 lb.

NEW YORK No. 12 or *Los Angeles Market*, an improved type, early and sure heading. Is of fine appearance, excellent quality and has a large percentage of perfect heads.

BIG BOSTON A variety highly recommended for home gardeners. Sure header, medium size, outer leaves attractive green color tinged with brown. Heads are crisp, fine buttery flavor. Be sure to plant this variety in your home garden.

BEEFSTEAK One of the best varieties for the home garden. Does not form tightly folded heads, but makes a compact bunch of leaves. The large, crimped leaves are highly colored brownish-red; crisp, sweet and exceedingly tender; very early, and stands a long time without going to seed.

TOMATOES

20c Pkt. 50c for 3 pkts. 80c for 1/2 oz. \$1.50 for 1 oz.

COLOSSAL, large tomato, even larger than the famous Ponderosa. Planters in different parts of the country have grown Colossal tomatoes weighing over 3 lbs.; some more than 4 lbs. Colossal has very thick, meaty flesh, few seeds, and mild flavor; produces giant fruits in abundance. One planter in Illinois raised over a ton of tomatoes from 186 plants. Unsurpassed for slicing or canning. Limited supply. Choice of Red or Yellow Colossal (Yellow is less acid).

OXHEART, (86 days) One of the largest sweet-flavored tomatoes ever produced, some fruits weighing 2 lbs. each. Skin is purplish scarlet, smooth, and evenly colored. The Oxheart shape of the fruit is most distinct, and they are extremely solid, having few seed cells, accounting for their enormous weight. Primarily a home garden variety, but readily salable on local markets and roadside stands.

NEW TREE TOMATO a wonderful variety that grows upright better than any we have ever seen. Firm, solid, thick flesh, large meaty centers. Fruit is purplish pink. Form always round and symmetrical and of medium size. Very productive.

CRIMSON CUSHION OR BEEFSTEAK (Abt. 96 days) is very large, round and regular, bright scarlet skin, solid flesh of best quality, seed cells small. Plants are very prolific, fine appearance.

WHITE BEAUTY *Anti-acid* is ivory-white in color (flesh is almost paper white). It is of large size and of excellent quality for slicing, canning and juice. Extremely mild, contains less acid than other tomatoes, eaten by thousands of people who have heretofore avoided tomatoes on account of the acidity. Limit 3 pkts.

SMALL PRESERVING TOMATOES

10c Pkt. 50c for 1/2 oz. 90c for 1 oz.

Mixture of small fruited varieties are named for their resemblance to the various fruits and are very ornamental, as well as delicious in salads, preserves and pickles.

Red Cherry, Red Pear, Red Plum, Yellow Cherry, Yellow Pear, Yellow Plum.

(Our tomato seeds are treated)
10c Pkt. 50c for 1/2 oz. 80c for 1 oz. \$5.75 for 1 lb.

EARLIANA (94 days) Hardy and productive, coming into fruit in the shortest time and rapidly maturing the entire crop of fine fruit. Fruits are glove shaped, somewhat flattened, deep scarlet and smooth.

BREAK O'DAY (63 days) Outstanding for its maturity, smooth, uniform, globe-shaped fruits, and resistance to wilt. Plants are large, producing an abundance of medium sized, bright red fruit with thick walls, small seed cavities, and splendid flavor. Best adapted to rich, heavy soils. For home and market.

MARGLOBE (114 days) A leading variety among canners, shippers and market gardeners. The vine is vigorous, resistant to disease, fruit a large, slightly flattened globe of fine bright scarlet color, very firm and meaty of the very best quality. Fruits weigh 7 to 9 oz.

RUTGERS *The Ideal Tomato*, a commercial variety of great importance in most of the Eastern and Southern states. Suitable for canning, juicing, and long distance shipping. Large fruit size, 6 1/2 to 7 1/2 ozs., globular in shape, slightly flattened, smooth, bright red, and with heavy walls and small cells. Vine is vigorous, heavy and wilt-resistant to a high degree. Particularly adapted to light soils and is grown on a large scale in New Jersey and Texas.

CARROTS High in Vitamin A

10c Pkt. 50c 1 oz. \$1.75 1/4 lb. \$4.50 1 lb.

CHANTENAY—LONG TYPE (70 days) New strain of Chantenay meets the popular demand for longer Carrots. Deep orange, smooth, tapered, stump-rooted. Strong, medium tops.

DANVERS HALF LONG (75 days) Prime favorite, brilliant market appearance. Smooth, handsome roots, 6 1/2 to 7 1/2 in. long, tapering to blunt point. Deep, bright rich orange, tender, sweet and crisp. When bunched makes the most attractive Carrot of the market. Sells at top market prices. Our strain is outstanding.

OXHEART, Short broad carrot, heaviest yielder of the table carrots, and the easiest to harvest. Roots sometimes 5 in. in diam. and about same length. Often planted for stock food, although excellent table carrot.

NEW CORELESS CARROT early, grows rapidly, superior flavor, tender, without woody heart or core. Roots half-long, blunt-pointed, grow to medium size, very smooth, deep orange-red color.
15c Pkt. 60c 1 oz. \$1.75 1/4 lb. \$4.50 1 lb.

SEEDS FOR POULTRYMEN

POULTRY CABBAGE—a rapid grower, can't be beat for low priced seed. This wonderful green food for poultry has been known to yield 3 tons in a space 40 by 60 feet. 1/2 lb. of seed will grow enough green to feed about 1000 hens for 4 months; 3 lbs. to an acre for 6,000 hens for 4 months. In the Northern States the seed may be sown any time from early spring until the middle of July. In the South, seed may be sown throughout the entire year.

Pkt. 10c 1 oz. 50c 1/4 lb. \$1.25

CHISA, or Chicken Lettuce yields as much or more than other green feeds, is economical to grow for when cut it resumes its growth rapidly and can be cut again and again; or the leaves can be pulled off each stem like the Jersey Kale. Does not make a head, but sends up a stout stalk, 3 to 4 feet high, and just loaded with leaves.

Pkt. 10c 1 oz. 35c 1/4 lb. 75c

MAMMOTH RUSSIAN SUNFLOWER is an excellent poultry feed at all times and especially during the molting season. Single heads often measure 12 to 22 in. in diam. and contain an immense quantity of seed.

Pkt. 10c 1/4 lb. 20c 1 lb. 65c
5 lbs. \$3.00

KALE or Borecole (80 days) Jersey or thousand headed, immensely productive sort much grown for chicken feed. Ideal for stock. Plants tall, sometimes attain ht. of 5 ft. or more. Much branched and tree-like and bears an abundance of thick smooth deep green leaves.

Pkt. 10c 1 oz. 25c 1/4 lb. 75c

POULTRY BEET Mangel Wurtzel furnishes a tremendous yield per acre and makes an excellent green feed for poultry during the winter months and always increases egg production. Keeps cattle in perfect physical condition and increases their growth. Only a little garden space will be required for growing. Enough to last all winter, and they will keep until spring. Stored in cellar or any cool place, they will keep until spring.

Pkt. 10c 1 oz. 25c 1/4 lb. 75c

PROSO The WONDER EGG and MEAT PRODUCING Grain (this is not common Hog Millet). It grows more rapidly and matures quicker than other grains; reaches ht. of 3 to 4 feet, stools and branches making 15 to 25 heads instead of 1. That is why it yields such enormous crops from such unbelievably small pots of ground. When Proso makes a splendid mash when ground alone. When fed with corn or oats the ration should be four parts Proso to one other grain. It may be fed in bundles as the kernels are readily scratched out of the heads, or it may be fed as clean grain from the thresher. Produces more eggs and meat per bushel than ordinary grains. ALSO FINE FOR HOGS, CATTLE, SHEEP.

During the fifteen years since it was first introduced into this country from Russia it has become climated so that it now grows here just as well as our native crops. It may be planted anytime after corn planting time up to the middle of July. Shipped postpaid.

FOR A BEAUTIFUL LAWN

SUNNY LAND RYE GRASS (Winter Green)

A fine winter lawn grass. A fast growing ANNUAL with broad, flat blades of a beautiful green color. When scratched in the present lawn it will produce in about two weeks. It makes a beautiful solid carpet of green by itself. Sow about 10 lbs. per 1000 sq. ft. (50'x20'). When planted on Bermuda or carpet lawn the grass should be mowed as closely as possible before sowing Winter green seed. It lasts until the Bermuda grass or carpet grass comes up in the summer. It does well in sun or shade. Postpaid.

Miscellaneous Gardening Needs

Stretches Fertilizer!
Hastens Compost!

BACTO

Just mix with your regular supply of chemical fertilizer and some waste, and quickly get a much improved, non-burning, soil-building plant food extended 6 to 60 times in quantity! BactO also hastens compost (easily, cheaply and quickly) makes fertilizer from leaves, table scraps and other waste—even sawdust, activates pot soils, aids hot bed making, improves mushroom production, and reduces odors in outdoor toilets. An unusual, multi-use product.

All Quotations Are Made Subject to Stock Being Sold when your order comes up for shipment, and your money that has been paid will be refunded, if we are sold out of the stock ordered. And we do not assume the responsibility of having to furnish the stock from other sources.

Our Guarantee

On proper proof, we will replace free of charge any trees, shrubs, etc., that prove untrue to label, or refund the amount paid, optional with us. Because of the many factors over which we have no control, we cannot be responsible for the crop, nor for any amount greater than the purchase price. All claims, except stock not true to name, must be made before May 1st after planting. If stock has been planted and handled according to our instructions, we will replace, free of charge all stock that does not start growth, and will replace at one-half price all stock that does start growth and then dies and is reported to us before May 1st after purchase.

We Pay Postage on All Orders Except Balled Evergreens

OUR CREDIT PLAN, NO PAYMENT PLAN ORDER ACCEPTED AFTER MARCH 15TH

On orders amounting to Ten (\$10) Dollars and up we will be glad to make the following terms to responsible people in order that you may buy and plant what Nursery Stock Seeds and Plants you will need while the season is on to plant them and pay the balance due on them after they are planted. This enables you to have the stock coming on while you are paying out the balance due.

In buying on our credit plan your order must amount to \$10 or more. To each dollar your order amounts to add 6 cents. This is done to defray the extra expense of taking care of the Credit Plan orders.

One-half of the amount of the order is to be paid down with the order, or before shipment date. The balance is to be paid in three equal payments, as follows: One-third of the amount due to be paid one month (30 days) from date of shipment. Second payment of one-third of the amount due is to be paid two months (60 days) after date of shipment. The third payment of one-third of the amount due is to be paid three months (90 days) after date of shipment. You may if you prefer send a deposit of 20 per cent of the amount of the order and we will ship C.O.D. for balance due on the first shipment.

We prepay transportation charges on all orders except Balled or Burlapped Evergreens. Be sure to give your Post Office and Express Office if your Express Office is not same as your Post Office.

We guarantee our stock to reach you in good condition. If found otherwise return to us immediately by express or mail, and we will refund every penny paid to us and paid by you for express or postage. Weather and soil conditions and the way stock is handled after it leaves us have much to do with stock growing off and doing well, all these being beyond our control. We will replace any trees or plants sold by us this year if reported by May 1st, after purchase.

Find enclosed \$ One-half of the amount of this order. Thirty days after shipment of this order I will send you one-third of the balance due and same amount each 30 days thereafter until the balance is paid.

Hybrid Tearoses

AMI QUINARD—Black-crimson buds; maroon-red, semi-double flowers. 15 petals.

BETTY UPRICHARD—Cooper-red buds, opening to semi-double, large blooms of delicate salmon-pink, with reverse carmine having coppery sheen. One of the best bloomers.

CALEDONIA—The "White American Beauty." Large flowers of waxy paper white in June, yielding their final outburst with the first snow fall.

COLUMBIA—Beautiful peach-pink, deepening as it opens. Superior shaped buds on very long and nearly thornless stems of good length. Very hardy.

ETOILE DE HOLLANDE—Very large, well built, brilliant red blooms, fragrant. One of the best new garden roses.

EDITOR McFARLAND—Clear brilliant pink. Perfect form; long lasting when cut. Strong stems.

FRANCIS SCOTT KEY—One of the largest reds. Color is a beautiful crimson-red shading to cerise, and has a profusion of petals opening to a higher center. Thrifty grower. Very hardy. Beautiful foliage.

GOLDEN DAWN—Large pointed buds of bright yellow, tinged with red. Flower large, well shaped, deliciously fragrant. Fine foliage, in different stages of development.

GOLDEN OPHELIA—Golden yellow. Varying in different stages of development.

KAISERIN AUGUSTA VIKTORIA—Queen of white roses. Pure pearly white with splendid large buds and superb, full double blooms. A profuse and continuous bloomer.

LADY HILLINGDON—Deep apricot-yellow to orange. Long slender pointed buds. A very free blooming variety, sturdy growth.

LUXUMBOURG—Flowers deep orange, with long pointed buds on graceful stems. Beautiful foliage. Strong, thrifty grower.

PRES. H. HOOVER—A glorious new multi-colored rose, unfolding its broad, thick petals unhurriedly from the beautiful pointed bud. Vivid cerise-pink, softly flamed with yellow, orange and scarlet; this combination most emphatic on the reverse. The perfume is exquisite; the foliage ornamental.

RADIANCE, PINK—One of the most magnificent garden varieties with large pointed buds which are rosy-carmine on the outside of petals and light, silvery-pink on inside. Very beautiful. Very vigorous.

RADIANCE, RED—Beautiful red sport of Pink Radiance and like it except in color. Stands among the best twelve roses of its class in America.

ROSLYN—Tapering buds, big ruffled golden-yellow flowers. Very fragrant. Long stems.

ROUGE MALLERIN—Long pointed scarlet buds; red blooms. Fragrant. Sturdy.

TALISMAN—A gorgeous assemblage of colors, exhibiting mostly gold, apricot-yellow, blood-orange, deep pink and old-rose. The bud is long and shapely, developing into medium-size, compactly double flowers. Free bloomer; glossy foliage.

Climbing Everblooming Roses

PAUL'S SCARLET—Intense scarlet flowers of excellent shape and moderate size, borne in small trusses. Plant of moderate growth, foliage good, blooms very liberally at its season.

RED RADIANCE—A sport of the bush Red Radiance and like it except it is a vigorous climber.

PINK RADIANCE—Same qualities as Pink Radiance bush rose. Vigorous climber.

Polyanthus

IDEAL—Velvety, crimson trusses of fragrant flowers. Top-notch in its color and class.

GOLDEN SALMON—Salmon pink and orange. Very popular in its class.
